

COOKE TOWNSHIP - RESOLUTION # 2002-05, - AUGUST 7, 2002

Prior to the new construction of any driveway that enters or exits to a township road, or any inadequate existing driveway, a new drain tile will be installed at the expense of the owner or lessee. Specifications determining the location, size, length and depth of the tile will be determined by the Township Roadmaster.

Upon request, the township will install said tile at \$25.00 per hour backhoe use, \$15.00 per hour backhoe operator, \$11.00 per hour laborers plus cost of tile. Said prices to increase as required.

All tile installations will be maintained by the owner or lessee (i.e., leaf and debris removal).
